However, if IP anonymization is enabled on this website, your IP address will be truncated by Google beforehand within member states of the European Union or other contracting states of the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be sent to a Google server in the USA and truncated there. On behalf of RSCS, Google will use this information to evaluate your use of the website, to compile reports on website activity and to provide other services related to website activity and internet usage to the website operator.

1. On our website, we use mautic – an open source based tool for marketing automation. This analysis and tracking software also serves to allocate and store user data (e.g. the browser used, last visited page, length of stay).
